During the post-apocalyptic war of the last generation, a vast world fell into darkness. The master race of the Elden, the first civilization to harness the power of mana, was defeated. The Earthen's current lives in misery and chaos, caught up in an endless cycle of conflict with the Mana Giants and the violent bloodthirsty Bloodthirsters, the other races of the Lands Between. The last stronghold of the Earthen, the Archdukes, a divine race that is no match for the Mana Giants, retreated and sealed the Lands Between with a series of special doors and passed down the secrets of elemental mana to the surviving races. They took refuge in two large islands: Chateau D'Salreno and the Isle of Dragons. The Archdukes' race was founded by the Elden's archarch, Nakor. As it has passed down the secrets of mana to the remaining races, the survivors believed that it was a sacred artifact from the past and trusted in their Archdukes. However, the Archdukes were merely the main commanders and nothing more. As time passed, the secrecy of the Archdukes and the amount of knowledge that they possessed became increasingly dense, and the residents of the islands needed to take matters into their own hands. The Archdukes were now just a harmless legend of the past, and the survivors were now burdened by the secrets of their origins and their own destinies. That is, until the arrival of a girl with piercing eyes from the unknown lands beyond the Lands Between. Lit. Iko Yamazakura A 13-year old girl who is a savior and a martyr in one. Laloche The leader of the God's Hand, a guild that have existed since the time of the old Earthen. Lit. Raika The top advisor and liege man of Laloche. He is an experienced hunter that has been with the guild since the start. Lit. Rotha Rotha is known for his clean fashion and neatly trimmed beard, as well as his courteous manners and icy composure.
