This technology will allow players to showcase their mastery of the sport in a new way as they can more directly control and influence the outcome of a game. Players will be able to progress through the game using both the left and right analog stick, or the X and Y buttons to move the player and use their physical attributes. The game also features more advanced training modes to give players greater control in various skills. The first gameplay showcase of the new technology will be at E3, with a second release at the FIFA World Cup in Brazil. The game is available on PC, Xbox One, Xbox 360, PlayStation 3, PlayStation 4 and Nintendo Switch.

Q: How to Convert this code into a Repository pattern? I am trying to write my code using the Repository pattern. I have a class like below.

```
public class DatabaseConnection { public
    ConnectionSettingsConnection() { ClientConnection = new
        SqlConnection(ConfigurationManager.ConnectionStrings["local"].ConnectionString); } private readonly
        SqlConnection _clientConnection; public ClientConnection ClientConnection { get { return _clientConnection;
            } } public DatabaseConnection() { ClientConnection = new
                SqlConnection(ConfigurationManager.ConnectionStrings["local"].ConnectionString); } } Now if I need to use
                the same I have to do something like this DatabaseConnection dbConnection = new DatabaseConnection();
                dbConnection.ClientConnection.Open(); List clients = new List(); using (SqlCommand command = new
                SqlCommand("select * from customers", dbConnection.ClientConnection)) { command.CommandType =
                CommandType.Text; command.Connection = dbConnection.ClientConnection; using (SqlDataReader reader
                = command.ExecuteReader()) { while (reader.Read()) { clients.Add(new client {

Fifa 22 Features Key:

- Live a complete football match as you take to the pitch in High Definition.
- Live 24/7 as the Socceroos brave the heat of Brazil, face Europe's best, and take on Premier League giants.
- Create your own unique club in Career Mode, customize your kits, stadium, and style your club.
- Re-live the highs, and endure the lows of your career as you earn experiences that will unlock trophies and features throughout the game - like choosing your favourite player kit, creating your best legendary performances, and commemorating great achievements and milestones.

-
- Featuring new skill challenges and visual cues to challenge your mastery of offensive and defensive football, the challenges are made more difficult by Advanced Thinking Capabilities that award you bonus experience points based on your real-life skills.
 - Play with or against your friends via FIFA Ultimate Team, the new depth of customisation and depth of competitive modes being added that are not possible within previous versions.
 - Embark on a new era of football creation as a new host of fan clubs are available including Crewe Alexandra, Preston North End, and Coventry City.
 - Discover the new Player Premiere Manager Mode where you can manage young stars and discover new ones through the process of discovery.
 - Expand your squad with a range of all-new classic matchday kits that are sure to create some beautiful fireworks displays.
 - New Play Styles ensure a total gameplay freedom when selecting your formation, tactics and tactics sub-system.
 - FIFA 22 features the first ever 360-degree Player Awareness through a revolutionary Player Tracking System allowing players and coaches to become more knowledgeable about their opposition.
 - Advanced Visual Concepts ensure a new level of immersion by rendering grandiose animations which capture the beauty and unique atmosphere of football.
 - New crowds react to your every move, cheering your triumphs as well as jeering during your mistakes.
 - Over 600 brand new authentic crowd chants added as well as songs that replicate the chants of all local fans.
 - FIFA 20 Ultimate Team additions including over 400 cards with dynamic attribute movements for the purchase of new players with values that you set in your Ultimate Team.
